

Hot Water, Hotter Savings with ENERGY STAR® Certified Gas Water Heaters

Save Now with ENERGY STAR Certified Gas Water Heaters!

Did you know that water heaters are the second highest energy user in the home? Gas water heaters that earn the ENERGY STAR label are independently certified to save energy, save you money, and protect the environment.

- Gas storage models that have earned the ENERGY STAR use 9% less energy compared to standard gas water heaters.
- Tankless models that have earned the ENERGY STAR can save a four-person household hundreds of dollars over its lifetime.

And now with a \$300 federal tax credit and rebates available in many areas, ENERGY STAR water heaters offer the hottest savings ever. Tables 1 and 2 show several examples of rebates from across the country. Check with your local utility for more details or go to energystar.gov/rebatefinder.

Learn more about tax credits for eligible ENERGY STAR certified water heaters at energystar.gov/taxcredits.

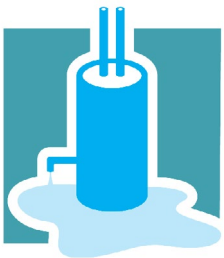

What Makes ENERGY STAR Certified Gas Water Heaters So Efficient?

ENERGY STAR certified gas water heaters integrate the latest in energy-efficiency technologies to save energy:

- Storage water heaters use better insulation, heat traps, and more efficient combustion systems.
- Tankless water heaters employ a secondary heat exchanger to extract more heat from the combustion process.

When Do I Need to Replace My Water Heater?

If your water heater is 10 years old or older, chances are it is heating water inconsistently, or worse—going to altogether fail and flood your home. Some common signs that can indicate water heater failure are:

- Visible corrosion
- Water leaking
- Rust in your water
- Lack of available hot water
- Rumbling noises

Avoid the hassle, stress, and extra costs of water heater failure by planning ahead and replacing your old water heater early, before disaster strikes, with a new ENERGY STAR certified water heater.

Table 1: ENERGY STAR Certified Gas Storage Water Heater Rebates

State	Utility	Incentive
CA	SDGE	\$100
MA	mass save	\$100
MI	Consumers Energy Count on Us	\$120
